**As you remember to change
the clock this year it is
important to also remember
to test your smoke detector
and to take a photograph of
those you love.**

Just as it is essential to have a working smoke alarm long before you need it, it is also important to take a clear passport-style photograph of those you love and care for before you need one.

In the event they should wander off a recent photograph will make it easier to find them and get them home safe.
